EDUCATION

Utah State University – Jon M. Huntsman School of Business

Logan, UT

Bachelor of Arts, Information Systems: Web Development emphasis; Minor: Data Analytics

May 2025

- GPA: 3.99 while working 20 hours per week

TOOLS

- **Languages:** JavaScript, Typescript, HTML, CSS, Python, SQL, Java
- **Technologies:** Visual Studio Code, React, Express, Next.js, Git, GitHub, AWS, Web JSON API, Microsoft SSMS, Microsoft Access, Microsoft Excel, MongoDB, Sequelize, IntelliJ

PROJECTS

Full-Stack Recipe Storing Web App

Apr 2025

MERN Stack (MongoDB, Express.js, React, Node.js)

- Developed and deployed full-stack app with React, Express.js, and MongoDB, hosted on AWS EC2
- Created RESTful APIs with Express and Mongoose for frontend-backend data flow
- Built responsive UI with React and MUI, including forms, dynamic rendering, and state management

Conversion of Static HTML to Dynamic Express.js MVC Web App

Feb 2025

Express.js

- Transformed static HTML website into dynamic Express.js web app using MVC architecture
- Modularized components and integrated Sequelize with SQL database for data management
- Built RESTful routes, linked controllers and models, and rendered dynamic content with EJS templates
- Developed a user-generated content feature with a post form for data submission

Canvas LMS-Inspired React App

Oct 2024

React

- Built React app from scratch using Vite, replicating the Canvas LMS UI/UX
- Made admin user that can add modules, announcements, and pages that dynamically update
- Used React Router for client-side navigation
- Styled with CSS modules, Tailwind CSS, and Material-UI (MUI)
- Created custom hooks for data fetching and authentication management

WORK EXPERIENCE

EFORCE

Providence, UT

Software Support Technician

Oct 2025 – Present

- Support software developers by finding, reproducing, documenting, and reporting bugs
- Build and manage SQL scripts weekly to deliver custom reports for sheriffs and chiefs of police
- Diagnose and troubleshoot software issues by analyzing error logs, software code, and database records

ATAT Inc.

Logan, UT

Database & Inventory Manager

Feb 2022 – Oct 2025

- Maintained database of ~1,000 products to support decisions driving \$7M+ in revenue
- Wrote SQL queries to streamline inventory management, and support business decision-making
- Developed automated inventory dashboards in Access, Excel, and Google Sheets, resulting in significantly fewer inventory errors and faster product location times

VOLUNTEER / LEADERSHIP

The Church of Jesus Christ of Latter-day Saints

Buenos Aires, Argentina & Roseville, California

Full-Time Volunteer

Dec 2018 – Nov 2020

- Gained leadership skills by teaching 7 days a week and leading by example daily for 2 years
- Met weekly goals by working as a team with my companion in weekly planning and setting daily goals
- Used Spanish to communicate with thousands of individuals per month
